

INTRODUCING LABOUR ASSIST...

Our commercial refrigeration products already carry a comprehensive 3 year parts warranty, but to further enhance this we are now introducing LABOUR ASSIST.

LABOUR ASSIST is a new scheme that, in the unlikely event of a parts failure, provides installers with a contribution towards labour and gas costs incurred replacing the part.

REGISTER ONLINE

To be eligible for Labour Assist the installer must complete the Labour Assist Registration Form on-line within 7 days of installation or 28 days from purchase whichever is the soonest. For on-line registration [CLICK HERE>](#)

IN THE EVENT OF FAILURE

The reporting and replacement of the failed component will be through the company where the unit was purchased (please refer to their Terms and Conditions).

If a component fails in first 7 months after purchase or 6 months of operation (whichever is the soonest) and the failure is accepted under our standard Warranty Terms, then we will automatically activate Labour Assist (providing the unit has been registered).

We will automatically issue a credit voucher to the company where the product was purchased from. They will administer the voucher by either crediting your account or otherwise. The value of the voucher is dependent on the model and part failed.

VOUCHER VALUES	COMMERCIAL	CELLAR COOLERS	
	CONDENSING UNITS	INDOOR	OUTDOOR
COMPLETE UNIT	£250	£150	£200
