TOTAL SUPPORT FOR COMMERCIAL CONDENSING UNIT
AND CELLAR COOLER RANGES

J&E Hall
International

Why J & E Hall?

As UK market leaders for commercial condensing units and cellar coolers, we have been designing and supplying commercial refrigeration equipment for over 15 years.

What sets us apart from the others? **It's simple... total support.**

Our know-how is unrivalled, and we've used our experience to develop a range of products our customers can rely on.

At J & E Hall we have the back-up and proven ability to support our product ranges now and in the future. Our units are available ex-stock through our nation-wide distribution network and we offer comprehensive sales and technical support.

Energy efficiency is key to our product design. We listen carefully to customer feedback and develop fully factory-built units that are energy efficient, quiet and easy to install.

Other units may look the same, but remember, it's what's on the inside that counts...

J & E HALL Commercial Condensing Units

FUSION & FUSION SCROLL

A full range of reciprocating or scroll condensing units in various casing sizes with multi refrigerant options.

MT: 0.5kW ~ 49.4kW

LT: 0.5kW ~ 14.6kW

DIGITAL SINGLE & TWIN SCROLL

A comprehensive range of single and twin digital scroll condensing units from 4HP to 16HP.

4.2kW ~ 46.1kW

INVERTER

With an increased demand for higher efficiency systems at part load, we introduce the first of our Fusion Scroll Inverter models.

1.5kW ~ 25.7kW

A2L

Using the latest low GWP refrigerants these new units are designed specifically for A2L refrigerants (BS EN 378).

0.6kW ~ 8.5kW

Applications

Petrol forecourts

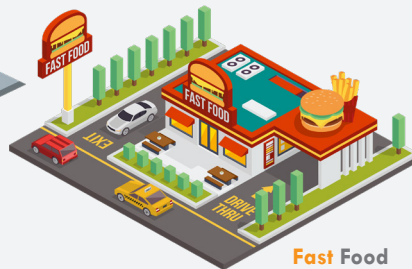

Cold stores

Convenience stores

Fast Food

Benefits

▶ Energy efficient

▶ Low noise

▶ Easy to install and maintain

▶ Reliable

▶ Robust

▶ Multi refrigerant

J & E HALL Cellar Coolers

CELLAR COOLERS

The JCC cellar cooler range provides a cost effective and reliable solution designed to maintain temperatures required for beer and wine cellars.

Operates on R410A.
2.4kW ~ 6.2kW

TWIN CELLAR +

Twin systems offer lower GWP refrigerant and up to 50m pipe runs. Air straightener and expansion valve kit included. Operates on R448A and R449A.

6.3kW ~ 9.7kW

CELLAR +

With increased capacity and longer pipe runs, Cellar+ systems are an ideal solution for larger cellar cooler applications.

Operates on R448A and R449A.
5.5kW ~ 8.5kW

AMBIENT BEER COOLER

Uses outdoor ambient air to help cool cellars and save money. Fits with any make and model.

Benefits

▶ Operates down to 4°C

▶ Low noise

▶ Easy to Install & Maintain

▶ Reliable

▶ Cost Effective

▶ Flexibility

Applications

How we support our contractors and installers:

1

National Distributor network

Comprehensive stock holding at Derby with multiple locations throughout the UK.

2

Technical Support

We help our distributors to help you. We have dedicated technical expertise to assist our distributor network and enable them to support the application of our commercial product ranges.

3

Research and Development

All our units are designed in the UK and manufactured at group facilities. We listen carefully to our customer requirements and develop products to meet changing market demands.

4

Spare Parts

We support the sale of commercial refrigeration units with a comprehensive range of parts, identified and rapidly dispatched from our centrally located stock holding in Derby.

5

Sales and Marketing support

We can provide images and content to promote our products through your website, with editorial opportunities available to publicise your J & E Hall product installations. For more information contact E: marketing@jehall.co.uk

6

Part of Daikin Group

Group backup and support

“ Our complete team works together to deliver the **BEST** possible product and **SUPPORT** package available ”

Commercial Refrigeration Hub

Discover J & E Hall's commercial hub, which brings together all the information you need on our commercial refrigeration products under one portal.

Case Studies

Condensing units at heart of cumbrian food store

Seventeen J & E Hall commercial condensing units are helping a long established cumbrian company to enhance its reputation for providing high quality, locally-sourced food.

The units have been used for a variety of cooling applications on-site, including supporting multi-deck display, freezer, meat serve-over and fish cabinets. They are also supporting freezer rooms, cold rooms and large dry-aged beef display case behind the butchery section

Cellar Cooler installed at lakeside bar

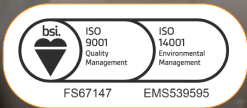

The Boaters Bar by Lake Windermere at Bowness in the Lake District is enjoying the benefits of a versatile, reliable and cost effective J & E Hall cellar cooler.

The J & E Hall cellar cooler was the number one choice for the popular cask ale and gin bar at the Windermere Marina Village.
